Independent Auditor's Report

**To the Audit Committee of the Board of Trustees
Seattle Art Museum
Seattle, Washington**

We have audited the accompanying financial statements of Seattle Art Museum (the Museum), which comprise the balance sheets as of June 30, 2017 and 2016, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Museum as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

SEATTLE ART MUSEUM

Notes to Financial Statements For the Years Ended June 30, 2017 and 2016

Note 1 - Organization and Summary of Significant Accounting Policies

Nature of the Organization - The Seattle Art Museum (the Museum) is a not-for-profit organization formed for the purpose of promoting and cultivating the fine arts. The Museum's activities include acquiring and exhibiting paintings, sculptures and other works of art, providing lectures and art education, and generally fostering art in all of its locations.

The Museum's operations are primarily at three locations. The main location of the Museum opened in December 1991 and is located in downtown Seattle (City) at 1300 First Avenue. An expansion of the downtown facility opened in 2007, approximately doubling its square footage to provide more gallery space to exhibit the Museum's collections, a new café, and an expanded retail store.

The Museum's original home in the City's Volunteer Park was built in 1933 by the City with funds contributed by the Museum on the City property. The Volunteer Park facility underwent renovations and was reinstalled with displays of the Museum's Asian art collection, reopening in August 1994 as the Seattle Asian Art Museum (SAAM).

The 8.5 acre Olympic Sculpture Park (OSP or the Park) in downtown Seattle opened in 2007. In 1999, the Museum purchased the site, which was enhanced by the acquisition of adjacent property. The Museum Development Authority owns one parcel of the Park's property. As a free community gathering space, it includes permanent and temporary sculptures, pedestrian paths, amphitheater, and a pavilion with a café and a parking garage.

Museum Development Authority - The Museum Development Authority (the MDA) is a public corporation chartered by the City of Seattle (the City) pursuant to the Enabling Act. The public purpose of the MDA pursuant to its charter is to undertake, assist with and otherwise facilitate the development and operation of public art facilities in conjunction with the Museum, including, but not limited to, a downtown art museum and a public sculpture park on the Seattle waterfront. In accordance with the MDA charter, the Museum appoints three of the nine members of the MDA governing council. The MDA owns a portion of the existing downtown Museum facility, which is leased to the Museum. The activities, assets and liabilities of the MDA are not included in these financial statements.

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis of Presentation - The Museum reports its financial position and activities according to three classes of net assets, depending on the existence and nature of donor restrictions: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted Net Assets - Contains support received and revenue earned that are not subject to donor-imposed restrictions and over which the Board of Trustees has discretionary control.

Temporarily Restricted Net Assets - Contains donor-imposed restrictions that require the Museum to use or expend the assets as specified. The restrictions are satisfied either by the passage of time and/or by action of the Museum.

Permanently Restricted Net Assets - Contains support in the form of endowment or sustaining funds. In accordance with purposes established by donors, the Museum is permitted to expend part or all of the investment return derived for either specified or unspecified purposes. Such income (loss) is recognized as a change in unrestricted or temporarily restricted net assets based on donor stipulations.

SEATTLE ART MUSEUM

Notes to Financial Statements For the Years Ended June 30, 2017 and 2016

Note 1 - Continued

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law. Expirations of temporary restrictions on net assets (i.e., the donor stipulated purpose has been fulfilled or the stipulated time period has lapsed) are reported as reclassifications between the applicable classes of net assets. Contributions received to acquire long-lived assets are reported as temporarily restricted contributions and released from restriction ratably over the life of the asset.

Cash and Cash Equivalents - The Museum considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Cash balances include operating reserves maintained for the lease described at Note 11.

Receivables - Receivables primarily consist of unconditional promises to give (pledges receivable), which are recognized as revenues or gains in the period in which the promise is given, and trade receivables. Conditional promises to give are recognized only when the conditions on which they depend are substantially met and the promises become unconditional. Accounts are charged to a reserve as they are deemed uncollectible based on a periodic review of the accounts. Receivable balances are unsecured.

Inventories - Inventories are stated at the lower of cost or market on a first in first out basis. Inventories primarily represent gift shop articles, books and supplies held for sale.

Incentive to Lessee and Deferred Rental Receivable - Incentives paid to a lessee have been capitalized on the balance sheet as an asset and amortized over the term of the lease under the straight-line method. Deferred rental receivable represents the cumulative difference of recognizing lease revenue on a straight-line basis and the actual cash rental payments.

Investments - Investments consist primarily of marketable debt and equity securities as well as other nonmarketable securities. Investments in debt and equity securities are carried at fair value based on quoted market prices. Realized and unrealized gains and losses on investments are included in investment return in the statements of activities. Investments restricted for long-term purposes consist of contributions received that are restricted by the donor for long-term purposes such as for an endowment.

Investments in nonmarketable securities are carried at estimated fair value as provided by investment managers. The Museum reviews and evaluates the values provided by the investment managers and agrees with the valuation methods and assumptions used in determining the fair value of these investments. Those estimated fair values may differ significantly from the values that would have been used had a ready market for these investments existed.

Property and Equipment - All expenditures for repairs, maintenance, renewals and betterments that substantially prolong the useful lives of assets are capitalized. All acquisitions of property and equipment in excess of \$2,500 that have an estimated useful life exceeding one year are capitalized. Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation.

SEATTLE ART MUSEUM

Notes to Financial Statements For the Years Ended June 30, 2017 and 2016

Note 1 - Continued

Depreciation is computed using the straight-line method over the following useful lives:

Buildings	40 years
Tenant improvements	Shorter of 40 years or life of lease
Park hardscaping	20 years
Furnishings and non-computer equipment	5 - 15 years
Computer equipment	3 years

From time to time, the Museum engages in large construction projects to remodel or expand existing locations. The Museum capitalizes certain administrative costs associated with these construction projects as the Museum believes this treatment more accurately reflects the costs incurred for these projects.

Deferred Rental Income and Revenues - Income from nonoperating rental activities and other revenues are deferred and recognized over the periods to which the activities relate.

Contributions - Donor-restricted contributions are recognized in the period the contribution is received. Unconditional promises to give are recorded in the period the promise is received. Contributions to be received after one year are discounted at an appropriate discount rate commensurate with the risk involved. An allowance for uncollectible contributions receivable is provided based upon management's judgment including such factors as prior collection history, type of contribution and nature of fundraising activity. Amortization of the discount is reported as contribution revenue. Donated marketable securities and other noncash donations are recorded as contributions at their estimated fair values at the date of donation.

Art Collections - Art objects are expensed when purchased and therefore, are not shown as assets on the balance sheets. Art objects pledged or donated to the Museum are not recorded for financial accounting purposes and, accordingly, are not included as contributed revenue in the statements of activities or as receivables on the balance sheets. Proceeds from deaccessions or insurance recoveries are reflected in the statements of activities based on the existence and nature of donor-imposed restrictions.

Donated Services and Use of Facilities - The Museum recognizes contributed services as revenue and expense if the services create or enhance nonfinancial assets or require specialized skills. A substantial number of unpaid volunteers have made significant contributions of their time in furtherance of the Museum's programs. The value of this contributed time is not included in the accompanying financial statements as it does not meet the criteria for recognition.

Costs incurred by the Museum to operate and maintain the Volunteer Park facility are partially funded by the City of Seattle. Such funding and the related costs are included as support and expenses in the accompanying financial statements.

SEATTLE ART MUSEUM

Notes to Financial Statements
For the Years Ended June 30, 2017 and 2016

Note 1 - Continued

Operating and Nonoperating Activity - Operating activities represent support and revenues and expenses solely related to the annual exhibition and education programs for the Museum. Nonoperating activities are the support and revenues and expenses related to leasing of the expanded downtown facility and land at the Olympic Sculpture Park, contributions for nonoperating activities, capital projects administration and other expenses, debt financing, adjustments for uncollectible pledges, minimum pension adjustments and the impacts of underwater endowments on unrestricted net assets. Nonoperating activities also include accession purchases related to the art collections. Art accession and deaccession are considered outside the scope of ongoing museum programs and operations due to the variable nature of this activity from one year to the next. Transfers reported on the statement of activities from nonoperating to operating activities represent prior nonoperating funding received utilized for operating activities in the current fiscal year.

Allocation of Functional Expenses - The costs of providing various programs and other operating activities have been summarized on a functional basis in the statements of activities, with the exception of depreciation and amortization expense, which has not been allocated. To evaluate the comparability of the Museum's management and general overhead with other nonprofit organizations, all expenses, including depreciation, amortization, and nonoperating expenses, must be allocated on a functional basis. Total expenses on a functional basis as defined by U.S. GAAP for the years ended June 30 are as follows:

SEATTLE ART MUSEUM

Notes to Financial Statements For the Years Ended June 30, 2017 and 2016

Note 1 - Continued

Income Taxes - The Museum has been notified by the Internal Revenue Service that it is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (the Code) with the exception of income from any activities that are not related to the Museum's tax-exempt purpose. The Museum is further classified as an organization that is not a private foundation under Section 509(a)(1) of the Code.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications - Certain reclassifications are reflected in the 2016 financial statements to correspond to the 2017 year presentation. The reclassifications have no impact on previously reported total assets, liabilities, net assets or changes in net assets.

Note 2 - Pledges Receivables

Pledges receivable consisted of the following at June 30:

	2017			2016
	Endowment	Other	Total	Total
Pledges due in:				
Less than one year	\$ 5,315,000	\$ 5,900,617	\$ 11,215,617	\$ 10,790,696
Two to five years	12,960,000	4,484,088	17,444,088	24,027,450
More than five years		1,597,158	1,597,158	
Less discount to present value (1.00% to 1.70%)	(262,717)	(102,333)	(365,050)	(623,668)
Less allowance for doubtful accounts		(273,922)	(273,922)	(15,087)
Total Pledges Receivable, Net	\$ 18,012,283	\$ 11,605,608	\$ 29,617,891	\$ 34,179,391

Endowment pledges that are due in less than one year are reported as noncurrent pledges receivable on the balance sheet because the proceeds are restricted by donors for long-term investment.

Note 3 - Funds Held in Trust by Others

The Museum is a beneficiary of a trust held for the benefit of local nonprofit organizations. The trust, which is held in perpetuity, is administered by a financial institution and provides for quarterly earnings distributions to the Museum. The earnings are available for general operating purposes. The Museum's interest in the trust agreement, which is approximately 16%, is included in funds held in trust by others and permanently restricted net assets. The Museum received \$486,305 and \$485,935 in distributions from the trust during the years ended June 30, 2017 and 2016, respectively. The Museum's interest in gains and losses in the trust value are recognized in the statements of activities as permanently restricted. The balance related to the Museum's interest in this trust is reported at fair value and totaled \$10,509,546 and \$10,102,704 as of June 30, 2017 and 2016, respectively.

Note 5 - Fair Value Measurements

U.S. GAAP defines fair value, establishes a framework for measuring fair value, and requires disclosure about fair value measurements. To increase consistency and comparability in fair value measurements, U.S. GAAP uses a fair value hierarchy that prioritizes the inputs to valuation approaches into three broad levels. The hierarchy gives the highest priority to quoted prices in active markets (Level 1) and the lowest priority to unobservable inputs (Level 3).

Valuation Techniques - Financial assets and liabilities valued using Level 1 inputs are based on unadjusted quoted market prices within active markets. Financial assets and liabilities valued using Level 2 inputs are based primarily on quoted prices for similar assets or liabilities in active or inactive markets. Financial assets and liabilities using Level 3 inputs are primarily valued using management's assumptions about the assumptions market participants would utilize in pricing the asset or liability. Valuation techniques utilized to determine fair value are consistently applied.

Notes to Financial Statements For the Years Ended June 30, 2017 and 2016

Note 5 - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2017 and 2016.

Mutual Funds - Valued at quoted market prices in active markets.

Equity Securities - Valued at the closing price reported on the active market on which the securities are traded.

Debt Securities - Valued using bid valuations from similar instruments in actively traded markets.

Alternative Investments - Value at net asset value (NAV) per share, or its equivalent, as a practical expedient, as reported by the investment manager unless specific evidence indicates the NAV should be adjusted.

Funds Held in Trust by Others - Valued based on the quoted market prices of underlying investments of the trust and the Museums' proportional beneficial interest in the trust.

The valuation methodologies used by the Museum may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Museum's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7 - Benefit Plans

The Museum maintains a defined contribution retirement plan (the DC Plan) qualified under Section 403(b) of the Internal Revenue Code. The DC Plan covers all permanent employees who have completed at least 1,000 hours of service and have attained the age of 21 years. The Museum contributes 4% of eligible employee's gross income to the DC Plan each pay period. In addition, the Museum contributes an additional 50% match on up to 4% of employee contributions to the DC Plan. Employer contributions are vested over a six year period. For the years ended June 30, 2017 and 2016, the Museum contributed \$228,414 and \$365,055, respectively.

The Museum also maintains a defined benefit pension plan (the DB Plan) covering a portion of its employees. Participant benefits are primarily related to years of credited service and annual earnings. As of September 1, 2006, the DB Plan was frozen to new participants. During the year ended June 30, 2013, the DB Plan was amended to freeze the accrual of benefits for all participants as of June 30, 2013. Benefits accrued through June 30, 2013, will not be reduced and participants will continue to earn vesting credit if not fully vested. The Museum's funding policy is to contribute amounts to the DB Plan sufficient to comply with the minimum regulatory funding requirements. For the years ended June 30, 2017 and 2016, the Museum recognized \$244,201 and \$2,562, respectively, of net periodic pension cost.

The expected long-term rate of return on assets reflects anticipated future experience. This basis is consistent with the prior period.

Investment goals and risk management practices:

- The total portfolio will be managed on a balanced basis with considerations for diversification, quality and marketability, in accordance with the investment policy statement.
- The portfolio strategy employed seeks total return over a long-term basis. Consistency of returns on an annual basis is emphasized over individual year results.

The inputs and valuation techniques used to measure the fair value of the assets are consistently applied and described in Note 5. All assets are valued using Level 1 inputs and consisted of the following at June 30:

Note 9 - Endowments

The Museum's endowments consist of over 100 funds established for a variety of purposes. As required by U.S. GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law - The Board of Trustees of the Museum has adopted the Washington State Prudent Management of Institutional Funds Act (PMIFA). The Board of Trustees has reviewed PMIFA and, having considered its rights and obligations thereunder, has determined that it is desirable to preserve, on a long-term basis, the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this determination, the Museum classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Museum in a manner consistent with the standard of prudence prescribed by PMIFA. In accordance with PMIFA, the Museum considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund;
- The purposes of the Museum and the donor-restricted endowment fund;
- General economic conditions;
- The possible effect of inflation and deflation;
- The expected total return from income and the appreciation of investments;
- Other resources of the Museum; or
- The investment policies of the Museum.

As of June 30, endowment net assets, excluding endowment pledges receivable and beneficial interest held in trust, consisted of the following:

	<u>2017</u>	<u>2016</u>
Donor restricted endowment funds:

Funds With Deficiencies - From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor or PMIFA requires the Museum to retain as a fund of perpetual duration. In accordance with U.S. GAAP, deficiencies of this nature that are reported in unrestricted net assets were \$4,360,185 and \$7,702,984 as of June 30, 2017 and 2016, respectively. These deficiencies resulted from unfavorable market fluctuations that occurred shortly after the investment of new permanently restricted contributions and continued appropriation for certain programs that was deemed prudent by the Board of Trustees. Subsequent gains that restore the fair value of the assets of the endowment fund to the required level will be classified as an increase in unrestricted net assets. The deficiencies and subsequent gains associated with these endowment funds are referred to as underwater endowment activity in the statement of activities.

Return Objectives and Risk Parameters - The Museum has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Museum must hold in perpetuity or for donor-specified periods as well as board-designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that match or exceed the rate of return of a custom benchmark designed to effectively and proportionately represent the mix of asset classes within the Museum's portfolio while assuming a moderate level of investment risk. The primary investment objective of the endowment fund is to earn an average annual inflation-adjusted (real) return of at least 5% net of all investment management fees over the long term.

Strategies Employed for Achieving Objectives - To satisfy its long-term rate-of-return objectives, the Museum relies on a total return strategy in which investment returns are achieved through both capital appreciation, realized and unrealized gains and losses, and current yield, such as interest and dividends. The Museum targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy - For the year ended June 30, 2017, the Museum employed a blended distribution rate of 5.7% based on the endowment's average fair value over the three-year period ending December 31, 2015. For the year ended June 30, 2016, the Museum employed a blended distribution rate of 5.6% based on the endowment's average fair value over the three-year period ending December 31, 2014. Under the current investment policy the distribution rate is to be maintained within the 5.0% to 6.0% range. In establishing this policy, the Museum considered the long-term expected return on its endowment. The Museum's objective is to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

Note 10 - Related Party Lease Agreements as Lessee

The Museum is leasing land from MDA for use of its parcel at the Olympic Sculpture Park. Total lease payments of \$700,000 for this land are included in prepaid leases on the balance sheets and amortized over the life of the lease. The initial lease period expires in January 2152. The advanced lease payments are being amortized over the 150-year life of the lease. Contribution for the in-kind donation has not been recorded as the leased land is not readily susceptible to objective measurement or valuation given the unique required use of the land.

SEATTLE ART MUSEUM

**Notes to Financial Statements
For the Years Ended June 30, 2017 and 2016**

Note 10 - Continued

The Museum also leases units owned by MDA for expanded exhibition space in the addition adjacent to the Museum's downtown Seattle facility. The lease expires in December 2103, with required minimum lease payments through 2031. In addition to the minimum lease payments, the Museum is also obligated to bear the operating expenses of the MDA, and comply with certain public benefit provisions.

Future minimum payments under the terms of the lease approximate the following:

For the Fiscal Year Ending June 30,

2018	\$ 3,940,000
2019	3,939,000
2020	3,937,000
2021	3,941,000
2022	3,941,000
Thereafter	<u>34,475,000</u>
	<u>\$ 54,173,000</u>

The Museum is obligated to pay additional amounts under certain conditions specified in its lease agreements. Lease expense for the years ended June 30, 2017 and 2016, approximated \$3,961,000 and \$3,991,000, respectively.

Note 11 - Lease Agreement as Lessor

The Museum has an agreement with Nordstrom, Inc. to lease a portion of a condominium (Nordstrom Lease). Approximately 70% of the leased space is owned by the Museum. The remaining approximately 30% of the leased space is owned by FSP-RIC, LLC, which the Museum leases solely in order to sublet the space to Nordstrom, Inc. as part of the Nordstrom lease. The Nordstrom Lease term is 21 years, ending on May 31, 2031, and provides an option to lease additional space. In addition to base rent, Nordstrom is also responsible for operating expenses, in accordance with the lease agreement. The FSP-RIC Lease obligation is performed by Nordstrom, and the lease has the same commencement and expiration dates as the Nordstrom Lease.

Notes to Financial Statements For the Years Ended June 30, 2017 and 2016

Note 11 - Continued

During the year ended June 30, 2017 and 2016, the Museum received approximately \$5,358,000 in lease payments. The following is a schedule of the approximate minimum future rent receivable:

For the Fiscal Year Ending June 30,

2018	\$ 5,299,188
2019	5,299,188
2020	5,299,188
2021	5,299,188
2022	5,299,188
Thereafter	<u>55,962,596</u>
	<u><u>\$ 82,458,536</u></u>

As a lease incentive, the Museum has assumed two real estate leases (the Existing Leases) on space from which Nordstrom has vacated to occupy the Museum's condominium. The cost of the lease assumption is \$849,756 and is amortized against leasing income over the term of the Museum's lease with Nordstrom. For both of the years ended June 30, 2017 and 2016, amortization of the lease assumption approximated \$62,000.

The Museum also provided a cash allowance for tenant improvements totaling approximately \$7,007,230. Cash allowance for tenant improvements is capitalized and amortized against leasing income over the term of the lease. Of the cash allowance, \$2,507,400 was financed by a note payable from FSP-RIC, LLC. Principal payments during the years ending June 30, 2017 and 2016 totaled \$93,330 and \$87,038, respectively. For the years ended June 30, 2017 and 2016, amortization of the cash allowance approximated \$318,000.

SEATTLE ART MUSEUM

Notes to Financial Statements For the Years Ended June 30, 2017 and 2016

Note 13 - Line-of-Credit

At June 30, 2017, the Museum had a \$7,000,000 line-of-credit with U.S. Bank. The line-of-credit is due on demand and collateralized with general endowment assets. Amounts borrowed under this agreement bear interest at 0.9% per annum plus the one-month LIBOR rate quoted by U.S. Bank (1.96% at June 30, 2017). All outstanding principal is due April 30, 2018. There was an outstanding balance of \$973,592 and \$1,673,592 at June 30, 2017 and 2016, respectively. The Museum is subjected to certain loan covenants as stipulated in the debt agreements, which include a liquidity coverage ratio, fixed charge coverage ratio and collateral coverage ratio among others. As of June 30, 2017, the Museum was in compliance with loan covenants.

Note 14 - Concentration of Credit Risk

Financial instruments that potentially subject the Museum to concentrations of credit risk consist principally of cash and cash equivalents, investments and receivables. Investment managers engaged by the Museum make investment purchases, and the investments are monitored for the Museum by an investment advisor. Though the market value of investments is subject to fluctuations on a year-to-year basis, management believes the investment policy is prudent for the long-term welfare of the Museum and its beneficiaries. Balances in cash and cash equivalents and investments exceed federally insured limits.

Concentrations of credit risk with respect to pledge receivables are generally diversified due to the large number of individuals composing the Museum's programs and donor base. The Museum performs ongoing credit evaluations and writes off uncollectible amounts as they become known. The Museum has had no experience with significant losses due to concentrations of credit risk.

Note 15 - Related Party Transactions

The Museum receives contributions from members of the Board of Trustees and through foundations and corporations associated with members of the Board of Trustees. For the years ended June 30, 2017 and 2016, trustee contributions approximated \$13,326,000 and \$29,049,000, respectively. Outstanding amounts associated with the trustee pledges receivable approximated \$18,731,000 and \$28,682,000 as of June 30, 2017 and 2016, respectively.

Note 16 - Exhibit and Other Commitments

The Museum has entered into agreements to host several major exhibits. These exhibits will open in upcoming fiscal years. Under these agreements, the Museum is obligated to pay fees for use of the exhibits and exhibit related expenses. At June 30, 2017 and 2016, estimated fees for other exhibition commitments totaled approximately \$876,000 and \$683,000, respectively.

On occasion the Museum will enter into employment agreements with employees. When this occurs the agreements are generally for multiple years and include provisions for salary and other employee benefits.

Note 17 - Subsequent Events

The Museum's management has evaluated subsequent events through December 12, 2017, the date on which the financial statements were issued.

In September 2017, the organization committed to a major renovation and modest expansion of SAAM. The City owns the SAAM building, and the building is listed on the National Register of Historic Places and landmarked by the City. The building has not been substantially renovated or restored since its original construction in 1933. The renovation includes new climate and humidity control for optimum art preservation, updated plumbing and electrical systems, seismic upgrades to safeguard visitors and collections, an updated loading dock and receiving area for safer art transport, as well as improvements to accessibility. The renovation also restores the existing building and its facades and finishes to National Historic Rehabilitation Standards.

The expansion is new construction on the southeast side of the building, extending the building footprint by approximately 3,200 square feet. The addition will add approximately 12,000 useable square feet on three floors. This additional space provides for a new art gallery, new space for expanded mechanical and electrical systems, a new dedicated education space for school and other groups, new art storage, conservation space, and offices.

The total project budget is approximately \$54,000,000, which includes construction, design and engineering, entitlements, and art moving, storage and reinstallation, funded through a combination of city and state funding, a capital campaign and historical rehabilitation tax credits.
